Workshops take place both inside and outside, so please dress appropriately, including:

- Warm, protective footwear, preferably boots
- Plenty of warm layers
- A jacket or parka that will protect you from cold, rain and wind

WOMEN CAN DO!

TRADES AND TECHNOLOGY EXPLORATION CONFERENCE FOR HIGH SCHOOL GIRLS

Thursday, October 15, 2009
Vermont Technical College, Randolph Center, VT

CHAPERONE RELEASE FORM

Vermont Works for Women (VWW) and Vermont Technical College (VTC) are pleased that you will be attending the Women Can Do! Conference on October 15, 2009 at VTC as a chaperone. This is an exciting opportunity for students to have hands-on experience with science, math, technology, protective services, and skilled trades. In all the workshops, safety will be the first priority. Participants will receive thorough instruction in the safe use of all materials and equipment. However, all workshops may not be appropriate for all participants. If you have concerns regarding any of your students' participation at any time during the conference, we ask that you speak to the student and alert VWW staff and/or workshop presenters as appropriate.

If you have questions about a particular workshop offering, please call Kelly Walsh at 802-655-8900 x105.

I understand that as a chaperone, original, signed registration and release forms must be submitted for all participants under my direction in order for them to participate the day of the conference. If Vermont Works for Women does not have a participant's original, signed registration and release form, chaperones will be asked to supervise participants, but not allow them to participate.

Vermont Works for Women and Vermont Technical College has my permission to use my photographic image (video and still) for publicity purposes.

I understand that the workshop instructors reserve the right to deny participation to anyone whom they judge to be an undue risk to themselves or others.

I understand that the Women Can Do! Conference is a smoke free event. I understand that I am asked not to smoke at or around conference activities and to supervise students accordingly.
